EXPERIENCE

TWF Agency | Full-Stack Developer / Backend Engineer | Dec 2019 - Present

- ? Built scalable full-stack platforms with Next.js and NestJS for internal tools and client systems.
- ? Designed backend APIs, database structures, and business logic for campaign, dashboard, and support platforms.
- ? Developed WordPress plugins and reporting workflows for booking, payments, exports, and admin operations.
- ? Managed Docker-based deployment workflows and cloud infrastructure.
- ? Implemented AI-powered workflows for reporting, content generation, and process automation.

PIC Phuket | Developer | Mar 2017 - Dec 2019

- ? Developed web and mobile application features for business-focused products and internal tools.
- ? Contributed to Bee-card and related service features.
- ? Supported product research and feature exploration for new service ideas.

SELECTED PROJECTS

- ? POS Platform: Retail POS architecture covering order flow, payments, and scalable backend design.
- ? Campaign System: Registration, OTP verification, receipt upload, product validation, and reward operations.
- ? Booking & Reporting System: WordPress-based reporting, exports, and operational insight tools.
- ? AI Automation Workflow: LLM-powered content generation, reporting automation, and workflow orchestration.

AVAILABILITY
